Services Provided

- Contract Manufacturing: We offer comprehensive solutions tailored to your specifications.
- Custom Development or OEM Service: Our team specializes in the design and production of bespoke products.
- Assay Development: We provide development services for Polymerase Chain Reaction (PCR) and Loop-Mediated Isothermal Amplification (LAMP) assays.

Other Tests

- Detection of milk adulteration
- Screening for Celiac disease through gluten allergy detection
- Identification of antibiotics in milk
- Measurement of transaminases (ALT/AST) for assessing liver function
- Ferritin detection to evaluate iron status.

Who Are We?

Our foremost passion is delivering health solutions that truly prioritize the unique needs and trust of our valued customers. In the current landscape, there's a myriad of rapid tests available, but often their quality is left wanting or fail to meet their promised delivery times. Considering this, we do like to share why many are choosing Triogen for their testing requirements:

Stable & Reliable

Our rapid test product stands on a foundation of meticulous research, assuring both stability and consistently reliable results each time.

Commitment to Excellence

At Trioscience, honouring our commitments to you is paramount. We ensure that the quality promised is always delivered on time, without any compromise.

Swift Delivery

Fully understanding the urgency of health needs, our team has optimized our delivery processes to guarantee you receive our tests in the shortest possible timeframe.

Unwavering Support

You will be assisted and guided by our dedicated technical support team, ensuring that your testing experience is mooth and hassle-free.

Building Trust

Trust in a product begins with trust in its provider. Having served a diverse range of organizations and individuals, we've consistently placed their needs and feedback at the forefront.

Sample Testing

To allow you to personally assess the efficacy of our products, we would be delighted to send over samples. This underscores our confidence in the caliber of our product.

Our guiding principle is to understand and cater to your specific requirements, ensuring our solutions integrate seamlessly into your health and safety protocols.
